### VERNON TIGERS DISPLAY MUCH PEP IN FIRST BALL GAME OF SEASON.

#### FANS ATTACK

**JOE BENJAMIN.**  
PHILADELPHIA, March 6.—After Joe Benjamin, of San Francisco had fouled Joe Tipton twice in the fourth round of a scheduled eight-round wind-up at the Olympia A. A. here tonight, excited ring-side spectators jumped into the ring and tried to assault Benjamin.

Several landed blows on his head before the police jumped into the ring and drove the enraged spectators out of the inclosure. The police then escorted Benjamin to his dressing-room and ordered the spectators from the building. Both of Benjamin's blows were low in the fourth, the second dropping Tipton to the floor where he lay groaning and squirming around in agony. It was that action which aroused the crowd and started the small-sized riot. Up to the time of the foul blows Benjamin had the better of the fighting.

#### TACKLES TIGER

**FROSH TODAY.**  
Huntington Beach Cinder-path Squad to Perform.

**Meets Oxy's First-Year Men at Patterson Field.**

**Kerr and Carter Hook Up in Mile Run Again.**

For the first time this season the highly touted track team of Huntington Beach will be unveiled in its full strength when Coach Feet Walker leads his charges against Occidental's precocious peacocks at Patterson Field this afternoon. Little is known of the relative abilities of the two squads, as today's contest will be the first dual meet of the year for both teams, but it is generally understood that Huntington Beach has a choice bunch of athletes.

The feature event of the meet will be the mile run, which will bring Kerr of Huntington Beach and Carter, formerly of Longwood High, together again. Kerr hopes off this event in something like a 4 min. 30 sec. without apparent effort, and is improving daily, according to Coach Walker. Interesting competition will be furnished by Carter of the Oxy frosh, who finished right behind Kerr in the mile run last season. Although Kerr has defeated Carter both times they have raced, Pipal has been giving his pet miler some careful attention lately, and expects him to clip a few seconds off his record time.

The Nash brothers, Bill Kerr, and Ross Nichols make up the backbone of Walker's squad. Bud Nash is famous all over the south for his prowess in the broad-jumping business, and is about as valuable in the 160-yard dash. Nash can leap well over twenty-one feet and is a consistent 10:1 man in the century sprint.

**RUNS IN THE FAMILY.**  
Bud's brother Milton is a 4:40 man of some repute, and will be watched with interest today, while Nichols is expected to cop in the pole vault.

Nash will have Fulton as his biggest opposition in the broad jump. Fulton jumps over twenty feet with regularity and precision, and unless Nash is at the top of his form Fulton is apt to take the glory.

Bradshaw of the Occidental yearling squad is generally expected to take first place in the high jump. While jumping on San Bernardino's team last season Bradshaw cleared six feet, and has been leaping around five feet ten all season.

**RESUME MATCHES ON LINKS.**  
San Diego Golf Team to Play Victorians at Riverside Today.

One match in the second round of the team golf title will be played today, with the remainder of the schedule on tomorrow's program. George Cline, committee chairman, announced last night.

San Diego comes up to meet the Victorians at Riverside this afternoon and goes on to Redlands tomorrow. Every club but Brentwood entered into the fun last week, the Beverly club forfeiting all five matches. It is understood, however, that Brentwood will be in the running tomorrow.

Tomorrow's schedule calls for the following matches: L. A. Country Club at Midwick; Flintbridge at Pasadena; Orange at California; Wilshire at Annandale; San Gabriel at Hollywood; Virginia at Brentwood.

The standing of the various groups by points follows:  
1. Pasadena, 10; 2. Midwick, 9; 3. Los Angeles, 8; 4. Hollywood, 7; 5. San Gabriel, 6; 6. Virginia, 5; 7. Brentwood, 4; 8. Flintbridge, 3; 9. Orange, 2; 10. Wilshire, 1.

**FONSECA COMES TO TERMS WITH CINCY.**  
CINCINNATI (O.) March 6.—Louis Fonseca, an outfielder, came to terms today with President August Herrmann of the Cincinnati Nationals and signed a contract to play with the Reds. Ed Roush, star outfielder, is the only Red still unsigned.

**DENMARK ENTERS DAVIS CUP PLAY.**  
COPENHAGEN (O.) March 6.—Denmark has been added to the list of nations which will compete for the Davis cup this summer.

The challenge for the international team tennis championship trophy was filed with the United States Lawn Tennis Association here today. Denmark is the seventh nation to file a challenge.

#### Sir Charles Paddock--Sprinter Extraordinary.

**SIR CHARLES PADDOCK**  
WORLD CHAMPION SPRINT.

**SIR CHARLES PADDOCK**  
WORLD CHAMPION SPRINT.

#### AN INTIMATE IMPRESSION OF SIR CHARLES.

BY FEG MURRAY.  
A group of young men were seated on the deck of a liner going to France in 1919, discussing athletics and their records, and who the likely winners would be in the interallied games. "I can run 10 ft in the hundred," said one. "So can I," said another. "I've done, 10.1," said a third. "What can you do, Charley?" "I've done 9.4," replied a husky blond Westerner, and then, when a murmur of doubt went up from the group, he added, modestly: "Well, a slow 9.4." Then some one laughed and they all began kidding him. For weeks afterward Charley Paddock was called nothing but a "Slow 9.4," and no one believed he could do it, at that. But this same blond husky Westerner came home a double winner, and with a royal title conferred by the King of Montenegro, besides.

#### ASKED TO GO ABOARD.

Paddock recently received a letter from Mike Ryan, inviting him to be a member of a small American team that will tour Europe this summer, competing in Finland, Sweden, France and England. Jole Ray, Bob LeGendre, and others are mentioned to go. A trip of this sort is not alluring to Paddock now, as he has his work to do, and has already done lots more traveling than the average college youth. After the Olympics he, Charley Paddock, Reg Caughy and Bartlett took a trip through Switzerland, Italy, Monte Carlo and Nice, arriving back in Paris an hour before the track meet between America and France. Jackson Scholz, who had beaten Charley in the 100 at the final Olympic tryouts, had trained carefully and faithfully to win the 100 meters in this meet. When Paddock didn't show up in the morning from his trip he thought he had it as well as won. Charley's arrival just a few minutes before the competition began upset Scholz so that he was as good as beaten and after eighty yards of the race was run he was lagging far behind.

#### SEEKS GOLF TITLE.

According to Paddock, to be the world's champion sprinter is fair enough, but to be a golf champion is something else. He points to Gardiner, one of America's best golfers, who formerly held the world's pole vault record. Two weeks ago, when I asked Charley if he was going to run this year or not, all the answer I could get was some vague reply about a niblick and a masher. Now that it has definitely been settled that this would-be pole vault champion has no equal and the public demands another year of record-breaking, as U.S.C. captain, his school demands his leadership and the points he will bring them, and as one who loves the game he will find it very difficult to resist the lure of the cinders for another season. Be that as it may, Charley insists that after the "Oxy" meet he is through for good.

#### GUNNING FOR CASABA TITLE.

**Flock of Teams Fighting for C.I.F. Basketball Glory.**

**Manual and Bonita Mingle at Montebello Tomorrow.**

**Fast Battle in Lightweight Division Thursday.**

Three more struggles in the C.I.F. basketball championships are carded for this week, which will bring the field of contenders for the Southern California prep title down to a few teams. Manual Arts is slated to mix up with Bonita in Montebello's gym tomorrow afternoon, and the winner will probably be pitted against the victor of the Alhambra-Ventura brawl next week. San Bernardino and Redlands will play off the tie for the Citrus Belt League title today, and the resulting winner will take on Fullerton Friday on some neutral court.

Imperial drew a bye for this week's festivities. The Imperial basketball shooters, champions of the Imperial league, disposed of Escondido, Southern League district holders, in a tractors held last week, advancing to the second round. Alhambra's decisive victory over Tiny Leonard's Gardena troupe and Owensmouth's forfeit to Ventura, account for the presence of the other second-round qualifiers.

**MIDGETS SCRAPPING.**  
One of the pivot games in the 120-pound division will be played Thursday night in the Jefferson High gym. Long Beach and Huntington Park will be the principals, and as both saw a through the season at the top of their respective leagues, a whirlwind contest is expected. Long Beach remains in the running by virtue of a victory over Grosmont, Southern League champs, while Huntington Park put Whittier away in their initial game of the play-off.

Burbank and Montebello are still to be considered in the lightweight section. These teams will connect tomorrow, and the remaining squad will take on Glendale at the end of the week.

**FARRELL AND DENNY TO BATTLE FRIDAY.**  
Matchmaker Frank Crowley has imported Frankie Denny from San Francisco to meet Marty Farrell, Coast middleweight boxing champion. In the main event, at the American Legion Hollywood arena next Friday night, Frankie Farre and Frankie Conroy, a clever pair of 165-pounders, will hook up in the semi-wind-up.

The remaining bouts follow:  
Friday: "Tiger" Cline vs. Mike Kelly, 120 pounds; Willie Vincent vs. Mike O'Leary, 140 pounds; Ed Madeo vs. Frank King, 150 pounds; Sam Brown vs. Johnny Brown, 160 pounds; Al Andrews vs. Johnny Brown, 160 pounds.

### SETS BOWLING RECORD.

(BY A. P. NIGHT WIRE.)  
TOLEDO (O.) March 6.—Establishing of a new singles record of 729 for the American Bowling Congress and the entrance of a new pair at the head of the two men departments featured the competition in the minor events of the tournament here this afternoon. Waldorf Lundgren of Chicago, a member of the Kasade five-men team, went into the lead of the individuals with his 729, which is eleven pins higher than the mark set by Harry Cavan of Pittsburgh, at Toledo in 1919. Lundgren put together games of 224, 292 and 213 for the record-breaking total. In his third game he shot six straight strikes, spared in his seventh frame, struck in the next four and then gathered seven pins on his twelfth ball.

The feat also placed Lundgren at the head of all events with 1866. E. Peterson and F. Zuhm, also of Chicago, shot into the lead of the two-men division, with a team score of 1248, in games of 435, 430 and 403. Peterson led his team-mate, scoring 474 of the total in games of 224, 294 and 244.

INTEREST KEEN IN MEN'S RELAY.

Venice and L.A. High Preps to Clash.

Titular 500-Yard Races for Both Sexes.

Lady Langer Will Meet All Comers.

BY IDA R. KOVERMAN.  
Entries received by Coach Fred Cady of the Los Angeles Athletic Club indicate that there will be plenty of pep and ginger in the men's 500-foot relay race, in which the club team will clash with teams from Venice and Los Angeles High School. The record for this distance, four-men team, each man swimming 125 feet, is 2:24.4 and was made by the Yale team last year. Cady confidently expects his team to lower this mark and, with Walter Grant doing the distance in practice in the Guy Sylvester, 26 1/2 in. Tom Blake, 25, and Stanley Moss, 26, the chances for a new world's record seem promising. Grace, Sylvester and Moss are all swimmers of established reputation, while Blake, who is just a young lad, is said to be a prospective champion for stellar honors.

FIVE TEAMS ENTERED.  
There will be a 500-foot dash for high school boys, and Pasadena, Long Beach, Venice, Los Angeles and Hollywood will all be represented in the event. Cady is a great believer in handicap races and claims this class of swimming encourages beginners by giving them a chance to test themselves against the stars. He has arranged a 100-yard free style handicap for men and a like event for women, which should provide plenty of excitement. The 500-yard Southern Pacific swimming pool is the scene of the men's and women's races, and the women's race, Lady Langer will meet all comers.

ENTERS "DARK HORSE."  
In the women's 500-yard race, Helen Vernon, Marie Curtis, Mary Wheeler and Viola Hartman will carry the Athletic Club colors while Coach Frank Rivas of Venice has entered a dark horse in the person of Miss Lorna Amy, a newcomer in this country whom he claims will be hard to beat. Miss Amy is a native of Honolulu and looks as if she may be a serious contender in middle distance events. Baby Blanche Blackburn, the tiny three-year-old lassie, who astonishes everyone with her spectacular swimming and diving feats, will give an exhibition.

Lincoln High Lads Bitten by Golf Bug.

Golf has taken Lincoln High school students by storm. Nearly twenty students, including some of the best athletes in the school, have taken up the favorite outdoor sport. Fred Barber, captain of the Lincoln High golf club, is enthusiastic over the outlook for developing a first-class team. Many of the prep school golf bugs may be seen any afternoon practicing putting and other golf strokes. Barber claims that with the material he has now, he can make either Hollywood or L.A. step to win first honors. Practically every boy who has taken interest in the sport, is or has been a caddy at one of the local country clubs. The nearly every boy who is familiar with the game the prospects must look pretty good. Some of those who have taken active interest in golf are Barber, Walker, Fields, Foster, Radovich, Hanes, Swan, Bailey, A. Cornwell, J. Cornwell, Wilkerson and Hammons.

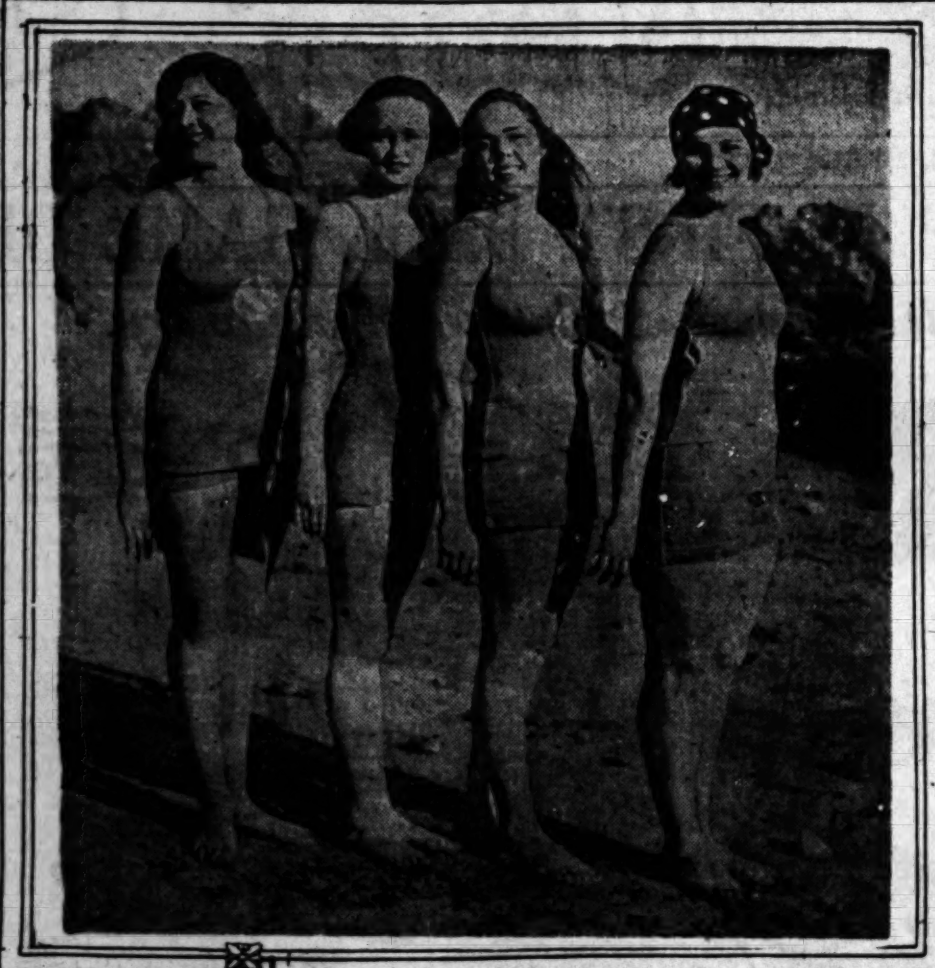

Returns from Boxing Tour of Australia.

(EXCLUSIVE DISPATCH.)  
SAN DIEGO, March 6.—Ernie Goessman, 134-pound boxer, has returned from a successful tour of Australia, where he fought seven fights, scoring three knockouts. One of the latter was over Jimmy Semmens, bantamweight champion of Australia. Goessman made 115 pounds straight for the title holder and topped him forward in two rounds. Other knockout victories scored by Ernie were over Bert McCarthy and Paul Demaky. Goessman got his real start in the boxing game at Vernon under the management of Pop Hazleton. Ernie says Frankie Monroe, Louis Garza, Tommy O'Brien and other American boxers in Australia are all attracting much attention in Antipodes rings.

The team will leave here Monday, April 10, playing Fresno State College at Fresno the following day, and California at Berkeley on April 12. Friday the Sagehens will hook up with the Davis Farm School nine at Davis. The following Monday an invasion of Stanford is scheduled, this game completing the tour as planned at this time. MIDWICK TOURNAMENT SUCCESS.

Polo at Fashionable Club Makes Hit With Public; Seniors vs. Army.

BY ED O'MALLEY.  
Despite the fact that the elements at times were unfavorable during the Midwick Country Club polo tournament, causing several of the games to be played on a somewhat soft turf, the sport was eminently successful. It was pleasing to the management to see the public begin to show an increased interest in the pastime which bids fair, in the near future, to become almost as popular as was horse racing hereabouts some years ago. The most planned member of the Midwick Country Club was John B. Miller, who is regarded as the father of polo in Southern California. Mr. Miller has done much to bring this great outdoor pastime to the high standard it has attained. Much credit is due Charleston F. Burke who led the Midwick Seniors to victory after a most grueling battle. His work was all the more worthy from the fact that he was hardly at his best during the last few days of the tournament, owing to a threatened attack of the flu.

A BIG JOB.  
When everything is considered by and large the Midwicks had probably the biggest job on their hands to retain their laurels that they have had since the team was formed. The eighth chukker against the Army on March 2 and also the extra one to break the tie will long be remembered as the two most strenuous periods ever seen at the course. It was a tough game for the Eleventh Cavalry to lose, but they attested their good sportsmanship by giving a hearty three cheers for the Midwicks after Teddy Miller brought the per-simmon home with one of the greatest angle shots near the goal ever seen anywhere. The Army lost a tough game to Del Monte—a game that would have gone to them nine times out of ten in any other match. Five different times they had the ball within inches of Del Monte's goal with the four sons of Mars taking ineffectual pokes at it, but fate was against them, something always happening to swing the pecky pill away from dangerous territory. The Midwick Seniors will hook up with the Army again this week, this time at the Coronado polo grounds on Thursday afternoon. Here is where the hair should fly again. However, if the Midwick Seniors are in good shape they should repeat.

HOT SHOTS BY WILLIAMS.

(Continued from First Page.)

Dennis always enjoyed his full share of parking space at the plate, and was an advocate of the tee hold.

Will his recent bitter experience tend to make him give the pitcher more space for his fast ones? In that event, he will be handicapped. A bad bearing generally is followed by loss of confidence. There have been exceptions, very rare, and we know of only one personally.

A ball bounced off the illustrious head of Frank Chance had the effect only of making him protrude it farther and more belligerently over the plate. Strangely, the P. L. could not dodge a ball aimed directly at his head. The whirling missile strangely fascinated him as much as a soft pie hurled into the face of a movie hero. All told in the major, the P. L. was crashed on the bean about forty times. Later in his career he wore a cap with special padding on the exposed side. He felt that forty-one beanings would be one too many. Later he submitted to an operation to relieve the pains caused by the accumulated blows. But they never did succeed in driving Husk away from the plate.

Jess Orndorff never was quite the same ball player after being laid low by Jack Lively. A fast one by Russell Ford put Roy Corhan in the hospital for six weeks, and abruptly blighted what promised to be a brilliant major-league career. Corhan never was anything except a good minor-league ball player after that. Jimmy Lewis, former Sacramento and San Francisco left fielder, received one of the worst beanings in the history of our league. After that he wore a leather football helmet when he came to plate, which was sensible, if not ornate. Without this protection, loss of confidence would have made him rather useless. The whack received by Willie was not as severe as some of those, but he will bear it in mind for some time.

FOOTHILLERS TO FACE FRESHMEN.

Hollywood Trackmen Meet Pomonans Today.

Sagehens Have Off Year on Cinderpath.

Three Conference Events Next Saturday.

(EXCLUSIVE DISPATCH.)  
CLAREMONT, March 6.—In these days of strenuous dual meets, Eugene White Nixon, Pomona College track coach, is wishing that certain of his freshmen stars were eligible for varsity competition. This is an honor year for the Sagehens, last year's incoming class producing only one real star, Paul Stroud, and graduation taking about eight of the finest track men the Blue and White ever boasted of. Several of the peagreeners would fit in very nicely on the present varsity team. The 1921 outfit has had two meets so far and it has copped both of these by overwhelming scores. First Chaffey Union High School fell by the wayside to the tune of 74 to 29. Last Saturday Coach Homer Chaney's lads packed their belongings and journeyed to San Bernardino, there to soundly trim the Gate City crowd by an even more convincing score, the count being 108 to 14. San Bernardino has had the strongest track team in the Citrus Belt League for years.

TACKLE FOOHILLERS.  
Thinking that perhaps the competition might be a little stiffer against the city high schools, a meet has been arranged with Coach Bob Streib's high-powered Hollywood outfit. This clash is scheduled to come off tomorrow afternoon on the Sagehens' field. Hollywood is known to have a very strong team and it is doubtful if the Sagehills are strong enough to bump off the city chaps.

Most notable among the frosh stars is Charles Eaton, javelin heaver. This chap, who tips the scales at about 145 pounds, tosses the javelin 175 feet with the utmost ease. His best mark for the season is 180 feet. Very few of the high schools throw the javelin, however, so Eaton has to content with four or five afternoons' practice with the spear during the week. He pole vaults and puts the shot when appearing with the frosh team. Capt. Homer Friess is a mighty neat little hurdler and Fred Loubbourrow steps a mean quarter. Fay Smith and Caldwell are the sprinters, all three negotiating the hundred in 18-1 time.

Three conference track meets are carded for Saturday, Caltek invading Oxy, Pomona going to Redlands and Whittier, entertaining the Southern Branch outfit. In addition, however, U.S.C. will tackle Oxy at Patterson Field, the Trojans and Tigers holding up as the main features of a three-cornered meet. Caltek being the third party. Oxy's score will be divided, however, the engagement technically being an Oxy-Caltek meet and an Oxy-U.S.C. battle. Caltek's scores will not eat Oxy's total count against the Trojans, nor will the Trojans' total have an effect on the showing of Dean Cromwell's team against the Tigers.

Redlands has a well-balanced team and one that is playing a great defensive game now. The team that wins the game wins the right to play in the Southern California finals.

SPokane Amateur Boxers Suspended.  
(BY A. P. MONT WIRE.)  
SPOKANE (Wash.) March 6.—Frankie Grandetta and Lee Williams, Spokane amateur athletic club boxers, and Frank Lambert of the Spokane Athletic Club, were suspended from the Pacific Northwest Association for taking part in unsanctioned boxing competition. Harry S. Burdick, president of the P.N.A., announced that he would file information separately against the three men with A. J. Wakeman of Portland, registrar of the Pacific Northwest Association.

ANGELERS TO TRY OUT RAINBOW CLUB STREAM.

L. T. Barneson, accompanied by P. E. Peterson will leave one day this week to get some first-class stream fishing at the Rainbow Angling Club. It is a poor angler indeed that doesn't hook out a limit at the club, the only place of its kind in the world. Frank Mellus and J. A. Nadeau returned from their initial trips to Rainbow last week with fine specimens of brook trout.

SIXTEEN BIKE TEAMS EVEN IN LONG GRIND.

(BY A. P. MONT WIRE.)  
NEW YORK, March 6.—The sixteen teams riding in the spring six-day bicycle race in Madison Square Garden were on even terms at ten o'clock tonight, the end of the twenty-second hour. All had covered 454 miles and 8 laps. Deruyter, the Belgian rider, was leading.

The record for the hour, 493 miles and six laps, was made by Lawrence and Magin in 1914.

SIXTY WASHINGTON BASEBALLERS READY.

(BY A. P. MONT WIRE.)  
SEATTLE (Wash.) March 6.—An even sixty University of Washington baseball players are warming up on Denny Field under the direction of Coach R. L. Mathews preliminary to the opening of the Pacific Coast conference diamond season here April 24 with the University of Oregon team. Mathews has a half-dozen good twirlers to draw from this spring, including four veterans of the 1921 squad.

DENIES BENNY'S SIDESTEPPING.

(EXCLUSIVE DISPATCH.)  
NEW YORK, March 6.—The usually good-natured Billy Gibson was somewhat peeved today over the suggestion that had been offered in some quarters that his champion, Benny Leonard, was sidestepping a match with Charley White, Chicago lightweight. Bill, in explaining that Benny was going to box Johnny Clinton in Boston on March 26, but would not step in with White at the Garden on the 17th, said that the bout with Clinton was nothing more than a mere exhibition for the benefit of the Elks of Boston and, furthermore, that there would be no decision to the contest.

"I think that when Benny fights to a decision with his title at stake he ought at least be permitted the use of his two hands," said Gibson, apparently somewhat sore. "As it happens now, the champion is somewhat incapacitated with one bum wing which he injured in his scrap with Pal Moran in New Orleans."

"If I thought that Leonard was afraid of Charley White I would advise him to get out of the fighting game. We will take on that fellow White provided he can beat Johnny Dundee when they clash on the 17th in the Garden."

GATES TIRES

The Tire with the Wider and Thicker Tread

How often you hear motorists say: "There's a tire that's practically gone—its tread is worn thin."

Now suppose that this tread had been built wider and thicker to start with. It would have had more rubber in it and would still be good for a lot of miles.

The extra mileage you are getting from Gates Super-Tread Tires is due entirely to the wider and thicker tread.

# Clothiers Are Now in Lead in Federal Bush League.

## FOUR CLUBS BUNCHED.

Play-off Series Opens Next Sunday in Managers' Association.

The swift-swimming Harris & Frank nine still maintains the leadership of the Federal League, having trimmed the Los Angeles Gas Company last Saturday. The Clothiers now have won five games and lost but one.

A good sort of sand lot ball has been put up by the majority of the teams in the Federal League since it is to be seen during the next few weeks as but a game or so separates the first four clubs.

Bill Goodman, that diplomat of the local athletic world, declares that the best semi-pro fielders he has seen in many moons has turned up on the Dye nine. He is Clyde Holly and he handles himself like a seasoned veteran at his place in the inner field.

Another busher that has taken Goodman's eye is Al Fisher, a former Lincoln High School pitcher. Fisher is attending U.S.C. and his slinging this season is an improved brand over last year. Bill declares he should be one of the best pitchers ever turned out by the State of California.

In the divisions of the Managers' Association, things are rounding out in nice form. The Cox-Hass club of Pasadena has won in the A Division. During last Sunday's round of pastimes the Watts club, which was being hard pressed for the top hole by Young's Markets in

KANSAS CITY (Mo.), March 6.—

## Lower Price Merely, or Lower Cost?

Goodyear has always felt that the thinking tire-buyer was interested less in lower price than in lower final cost.

On that belief Goodyear has built up the largest tire business in the world.

Instead of making tires as cheaply as possible, Goodyear makes them as good as possible.

While such tires cost more than tires made of cheaper materials, they last so much longer they cost less in the end.

Goodyear is not content, however, merely to build the best possible value into Goodyear Tires.

Through Goodyear Dealers a sincere effort is made to help Goodyear users get out of these tires all the value the factory here in Los Angeles has built into them.

The public has learned that the value built into Goodyear Tires, plus the service rendered by Goodyear Dealers, results in greater tire satisfaction and lower cost.

As a consequence of this knowledge, more people ride on Goodyear Tires than on any other kind.

Goodyear Service Station Dealers, also, believe in the Goodyear combination of good value plus good service.

The Goodyear Service Stations here in Los Angeles will be glad to show you how to get greater mileage and greater economy from your tires.

WHITE SOX.

SEQUIN (Tex.) March 6.—Five days from this date the White Sox are booked to engage in the first of a series of games with the world champion Giants, but nine regulars are not on hand and seven of them are suspected of being holdouts. No outfielder is here and Hervey McClellan and Red Ostergard are the only infielders present, barring a few ambitious semipro who are not expected to make the team.

Bib Falk, Johnny Mostil and Amos Strunk are understood to be holdouts. Harry Hooper is under contract, but has not arrived. Ed Mulligan, first-baseman; Sheeley, Minner Wells tomorrow.

shortstop; Ernie Johnson and Eddie Collins have not put in an appearance. Collins is under contract, and so is Johnson, but they can't assist in the Giants series if they remain away from training camp. Dick Kerr and Charles Robertson are the holdout pitchers. Catcher George Lees has refused to sign.

CINCINNATI (O.) March 6.—

Eddie Roush, outfielder of the Cincinnati National League team, failed to sign a contract late today, after a conference here with President August Herrmann. Roush said that if he did not sign tomorrow he would return to his home at Oakland, Ind., and remain there.

Louis Fonzaca, who signed up earlier in the day, will leave for Mineral Wells tomorrow.

## INTERESTING

A Breakfast Coat with Petticoat to  
match is a delightful departure. The  
Breakfast Coat is \$14.75, and the Petti-  
coat is \$5.95. In satin and cutie  
the thing for traveling and week ends.

Waterproof Rugs are of fibre, and  
painted—or at least they look as if  
they were painted. These would be  
pleasant for sun-rooms and porches,  
and many people are selecting them  
for bedrooms and living rooms as well.  
There's something so satisfying in  
being able to scrub one's rugs. Sixth  
Floor.

"BULLOCK'S FOR LINENS"  
When is a Blouse a Dress, and when  
is a dress a blouse? are bewildering  
questions that are worrying many  
women. But then, one doesn't worry  
when one sees the new Tunic with  
petticoats to match, which are actually  
all the costume one needs for a charm-  
ing afternoon tea. One was in orchid

laden with flowers of many hues.  
After all, summer days present such  
delightful possibilities in the way of  
clothes, don't they? And hats—what  
more becoming than the flower laden  
things that are now appearing? Third  
Floor.

"ONE O'CLOCK SATURDAYS"  
Radler Sends Bullock's the most subtle  
and fascinating new French Cottons.  
A few yards to make a dress, and a  
seam of two, and there you have it,  
because to elaborate upon a Radler  
cotton, would be to deprecate it.  
Second Floor.

"BULLOCK'S FOR LACES"  
The Cherishes her cut glass as treas-  
ures, and after all, nothing makes  
quite such a sparkling glass as cut  
glass. Bullock's has a "Crystal  
Room" devoted to the display of Cut  
Glass, and in it are fine examples of  
Libby Cut Glass. You will find it on  
the Balcony, Bullock's Hill Street  
Building.

"BULLOCK'S FOR LINENS"  
"I Wish I Could Sew" wailed little Mrs.  
Smith, as she examined a Lamp Shade  
in the home of a friend. "Well, I don't  
know anything about sewing, and I  
made this one," declared the friend.  
"There isn't any secret. I just went

## Inauguration Month

### IDEALS of Business Building!

#### An Emphasis!

Such is the purpose of Inauguration Month at Bullock's.

—For there are Ideals deep rooted in the Foundations of this busi-  
ness. They have been there since its beginning.

March 4, 1907

—They have grown strong through fifteen years of Service—they  
have been set on high to be always bigger than the business itself,  
so that the work of building a business will never know completion,  
but will advance to meet advancing conditions—

—The wont of Inauguration Month has been to rededicate these  
Ideals through a month-long inaugural of New Merchandise and  
New Values—

—It is inspiring from within to have so much to show you and tell you about—  
just as it is inspiring to know that the aim of Bullock's reaches always to-  
ward securing the satisfaction of every customer—

—Come—everything is beautiful as if Spring had come full bloom—the in-  
vitation is wide—the opportunities are many—at Bullock's in every section of  
the store—

Even Furs are engulfed in Inauguration Month Value activities.

## Platinum and Taupe Fox Fur Chokers \$65.00

—Deep, rich, silky Fox Fur  
that one just loves to have about  
one's neck—

—They are made to be worn tight  
about the neck or loose—as the  
mood directs—the mode is interested  
just as strongly one way as the other.

—You will probably need no more  
expert advice than your own to im-  
press you with both the Quality and  
the Value of these Fox Furs at  
\$65.00—

—You have the assurance of Bullock's  
that they have been chosen individually—  
they have come to express the Character  
of this Bullock's exploitation of really  
Fine Furs as much as to reflect the Spirit  
of this Inauguration Month in its Pur-  
poses of Friend-winning through Value-  
giving—

—So the price will be tempting at \$65.00—and  
the Quality will be Bullock's—the Style will be New  
—the Opportunity will be unusual—tomorrow—at  
Bullock's Fur Section—Third Floor.

## 2000 yds. Printed Cork Linoleum, 75c yd.

—To insure prompt service—bring room measurements with you—to Bul-  
lock's Sixth Floor—For printed Cork Linoleum at 75c is going to create  
a sensation!

—This Linoleum features a wide range of patterns and colorings—A few rods slightly im-  
perfect through printing. The standard charge for laying linoleum in addition to the price.

## "Mousourk"—A New Porch Rug From Belgium

—directly imported by Bullock's. It is made of fine, se-  
lected cocoa fibre, very artistically designed and colored. It  
is practically weather proof, and is adaptable for indoor  
floor covering as well.

—36x72 inches—\$5.75. 4x7 feet—\$9.50. 6x9 feet—  
\$17.50. 6x12 feet—\$23.50. 8x10 feet—\$27.50. 9x12  
feet—\$35.00.

## Exclusive Designs In Chinese Mongol Rugs

—Rugs that have been selected with particular care, rep-  
resenting the highest type of workmanship, being all wool,  
and in fast colors. Sizes 8x10 and 9x12, and priced from  
\$325.00 to \$550.00.

—Exceptional in the way of price, certainly, but it is very  
rarely that rugs of this character are mentioned in terms of  
special sales.

—Sixth Floor—Section of Rugs.

—And come to Bullock's prepared to  
get the surprise of your life. Do you  
know the regular price of fine woollens  
such as Mara, Spongeen, Strelina, Pir-  
etta, Melrosa, Sonatta and Veldyne?

—Do you know that \$2.85 is but a  
fraction of their regular price? It's true!

—And remarkable as it may seem—here are good pat-  
terns in those selfsame fabrics at that selfsame price—  
\$2.85 a yard—at Bullock's.

—Colors they call Gaylardin, Ladybird, Caravan, An-  
gora, Valetta, Dolphin, Kremlin—as well as Navy—  
in an Inauguration Month value feature—\$2.85 a yard  
—at Bullock's Second Floor.

## 60 Wonderful Suprema Corsets at \$5.00

—Wonderful because Corsets of this kind are  
not supposed to sell for so low a price as \$5.00.

—A Model of pink brocade, with a band of elastic at  
top, and the bust is very low. The soft finish at the top  
of front clasp makes this corset particularly comfortable,  
while the long hip creates the fashionable straight line.  
A really wonderful corset at \$5.00.

## 300 Boyshform Brassieres at \$1.75

—A model developed in pretty pink broche, and finished across  
top with narrow edge of lace. It has washable ribbon shoulder

## BURCH REFUSES TO TELL STORY.

Co-defendant is Taken by Surprise by State.

Thrills Mark Sensational Day in Murder Trial.

Defense Scores in Fight on Prosecution.

Bit by bit, much as a stream of water cuts away its banks and with a force as seemingly irresistible, the defense of Mrs. Madalynne C. Obenchain, accused of the murder of J. Belton Kennedy, local broker, began yesterday to wear away, to dissolve, the carefully constructed prosecution theory of the crime. Replete with thrills, the defense opening was auspicious.

The first sensation of the day came at the close of the State's case early in the morning, when Arthur C. Burch, co-defendant with Mrs. Obenchain, was hurried, much against his will, into the midst of the trial. The move was made by the District Attorney's office and produced the effect they desired. Burch refused to answer any questions concerning his or Madalynne's movements.

**BURCH SURPRISED.**

The move came as a shock to all concerned. Burch knew nothing of the intentions of the State and was unprepared when he was brought into court.

Then, as the defense opened, countless witnesses were lined up to be brought in. As they came, no single individual contributed any great amount to the defense, but the testimony of each, piled upon that of the witness before, set to naught much of the evidence offered by the State.

**MADALYNNE CALM.**

Mrs. Obenchain was less affected, perhaps, than at any time in any day of the trial. There was nothing in yesterday's action to arouse her emotions. But she was perceptibly more interested than her husband. The witnesses were her soldiers.

The only witness of the day whom she did not take a visible deep personal interest in was Burch. Unprepared for his appearance in court, she wore a hat which could not conceal her face in the slightest.

The trial had a touch of social prominence yesterday when, during the afternoon session, Ruth Roland and Antonio Mareno, motion-picture stars, appeared and took front-row seats.

**WITNESS IS ILL.**

Because of the illness of Mrs. Mary Baillif, the last scheduled witness for the State, she did not appear in court yesterday. Mr. Keyes offered a certificate from Mrs. Baillif's physician stating that the condition of the witness was critical and that she could not appear in court.

Following this Mr. Keyes called Arthur Burch. Baillif Reader brought in Burch. The young man looked about the room with evident interest upon his entrance and spoke to several friends. Without any preliminary he was ordered to take the witness stand.

**FEARS ARE QUIETED.**

From observation this seemed to be the construction Madalynne placed upon the move. The fears of the defense were quickly put at rest, however, when, after a question had been shot at him by Mr. Keyes, Burch, after a moment's pause, said:

"Your honor, may I say a word?"

"Sit down." That was his reply.

Then he was asked whether he was met by Mrs. Obenchain at the station when he arrived here from Chicago just prior to the slaying and why he went direct to the Russell Hotel, which was located opposite Kennedy's office. To both interrogations he replied that he could not answer unless his attorney were present.

A hurry call was sent to Richard Kittrell and Paul W. Schenk, Burch's counsel. Mr. Schenk was reported to be at Lebec, hunting. Mr. Kittrell was finally located but was unable to attend the morning session, although the jury was kept on hand in case he appeared. At noon, Burch having been returned to the court, the trial was adjourned until 2 o'clock.

At that time Burch was again called to the stand. Mr. Kittrell was present. Burch's attorney objected to his defendant being asked any questions and stated that while the court could order Burch to testify, it must grant him immunity in such an instance.

Judge Reese then asked Burch whether he would testify without such immunity and the young man replied that he would not. At this point the State rested.

**JUDGE REAFFIRMS ORDER.**

Jud R. Rush, dean of the defense counsel, then arose to make the much-heralded motion. He requested the court to order struck from the records all the testimony of the State witness, Judge Reese perused the transcript at great length and then reaffirmed his order made Friday to strike from the records only that testimony of Thomas Haley, proprietor

## BANS SOAPSUDS FROM SEWERS.

Council's Action Protested by Spokesman for Laundrymen.

William R. Kilgore, representing all the laundries of the city (except those operated by Chinese) protested yesterday to the City Council against the ordinance that would prevent the laundries from pouring soap-suds into the city sewers.

"Why, the gutters of Los Angeles will be full of soap-suds and bubbles," he exclaimed.

The Councilmen in adopting the ordinance held that the sewers were too full and that, of course, soap-suds take up more space than so much ordinary dirty water. They clung to their determination yesterday and Mr. Kilgore explained the soap-suds menace at length to the Mayor, who has not yet signed the ordinance in question.

It has been suggested that special sewers be constructed for a soap-sud removal, or that the soap-suds be utilized by the street cleaning department.

**DEMANDS WOMAN'S FREEDOM.**

The Russell Hotel, concerning the movements of Burch following the night of the killing, presented no case, demanded that Mrs. Obenchain be freed: Without a question, this was the most sensational moment of the trial. Judge Reese began in his usual low voice to review some of the testimony offered.

For what seemed minutes he talked. He carefully concealed his intention until the very last word. Mrs. Obenchain leaned forward in her seat with earnest, tense face. Then the court stated that the motion would be denied.

**MRS. BURNS CALLED.**

The defense began. The first witnesses were for the purpose of eliciting testimony to impeach witnesses for the State. Mrs. Abbie Burns of Beverly Hills was the first called. She told of being at the Beverly Hills police station when Mrs. Obenchain arrived immediately after the shooting. She told of Mrs. Obenchain's condition, that she was semi-hysterical and was sick. She was questioned by Mr. MacDonald and the State did not attempt to cross-examine her.

Then, one after another, witnesses were called to impeach the testimony of C. S. Summar and Mrs. Elizabeth Besant, two principal prosecution cards. C. A. Baumeister and C. H. Urban, two real estate men and friends of Summar, were called. They both stated after he had been called to the District Attorney's office. Both men stated that Summar told them that he did not know whether the man he saw in the car at the mouth of Santa Monica Canyon was white or black, and that he did not recollect whether the car he saw was a roadster or a touring car.

**OFFICERS CALLED.**

After they had testified in reputation of the testimony of Summar, Charles C. Blair, Chief of Police of Beverly Hills; Deputy Sheriff R. H. Johnson, Frank Liehardt and Frank E. Wagner, Beverly Hills officers, and E. W. Borden of the Beverly Hills Fire Department were called to impeach Mrs. Besant. All but Borden testified that Mrs. Besant told them that she had not yet reached the door when the second shot was fired. She had stated previously that she was out and saw the flash of the gun that killed Kennedy.

Summar had previously testified that he saw Burch on the night of the murder at the mouth of the canyon in a small roadster with blinding lights.

That Madalynne had every intention of being in the city at 7 p.m., the night Kennedy was shot was the testimony of Miss Lillian Joslyn, who was in Mrs. Wilson's beauty parlor on the same afternoon. She said that Mrs. Wilson made arrangements to meet Mrs. Obenchain that evening. She was not cross-examined.

The most damaging testimony to the State's case concerning Madalynne's slaying on Kennedy was furnished by Mrs. Lillian Widoft, with whom the defendant lived for some time. Mrs. Widoft stated that Mrs. Obenchain lived with her, at Eighth and Coronado streets, and when a number of relatives arrived from the East, the young woman took a room a block away. This was to counteract the statement of Mrs. J. D. Kennedy, mother of the slaying man, that Mrs. Obenchain followed her son about, and even got an apartment near him.

Then Mrs. Widoft told of the courtship of Kennedy, when Madalynne was living in Highland Park. She said that the young broker was a frequent caller and sent flowers and candy with great regularity.

On the night Miss Connors was married to Ralph Obenchain, Mrs. Widoft stated, Kennedy called on the phone three times. Twice Mrs. Widoft answered the bell and stated that Madalynne was not at home. On the third call, she stated, they merely went to the phone and took down a message from Kennedy.

### Oak Buff

### Sunny Coral

### Loyal Blue

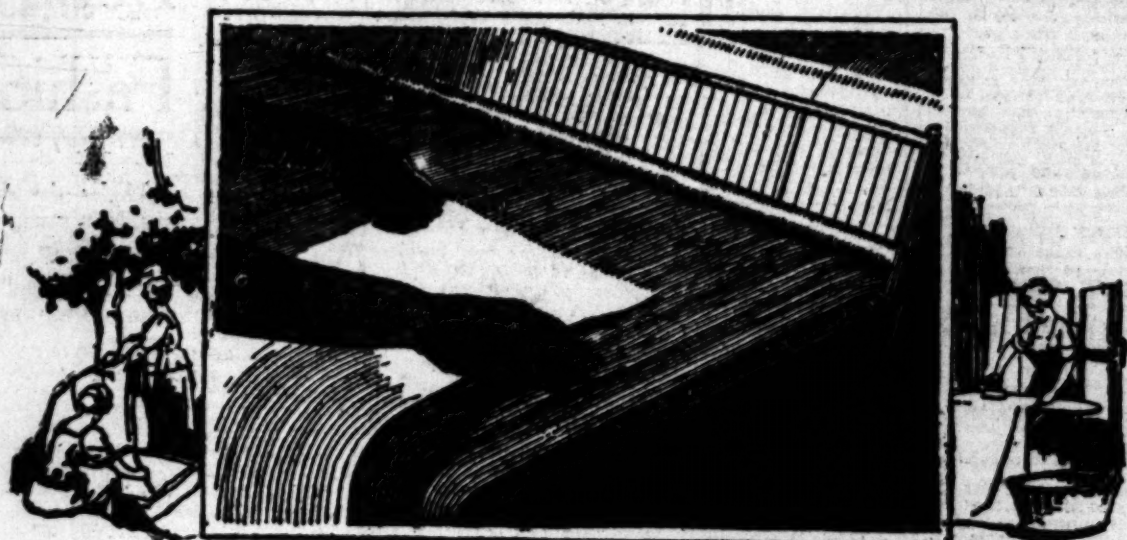

Is a paper expressive of sincerity, constancy, truth—it is fitting for a message of serious purpose.

### Shadow Violet

## Ironing by "the Tissue Paper Method" the Improved Service for Housewives

The soothingly soft linen you repose upon at night, the hand towel in the office wash-room, the luncheon cloth so snowy white—all are products of ironing by our "tissue paper method."

This ironing process has been named "the tissue paper method" because with it the finest of materials can be smoothed without the ruffling of a thread.

Yet this refined ironing operation began with a stick and stone. Ironed linen and apparel were unknown to even our relatively recent ancestors. Clothes, while still damp, were simply smoothed on a slab with a piece of wood.

In the 15th century the Italians improved on this with the "mangle"—a device consisting of two wooden rollers between which the clothes were passed. Two hundred years later the familiar heated hand iron of the housewife came into use.

Our tissue paper ironing method—the method of modern laundries—represents the peak of ironing progress.

In our laundries, bed linen, table linen and other flat pieces are ironed by simultaneously passing them under a softly padded roller and over a heated surface as

smooth as glass. This equipment is known as a flatwork ironer.

Garments like shirts, skirts, hangers, and similar pieces we iron on special press-tucks and folds, collar-bands, yokes, cuffs, and collars, are all gently shaped and tenderly smoothed into place by presses ingeniously fashioned for these special purposes.

No gas, electric current, or direct heat is used—only steam of constant temperature that cannot scorch, is employed. This steam, too, works up through the fabric, sterilizing while it smooths.

Exact pressure of just so many pounds; temperature of a set degree; ironing surfaces finely polished to give gloss without friction—these are what enable us to impart that lustrous finish to your linen and apparel which is so refreshing to the person, so inviting to the eye.

These are reasons, too, why we can take all the family washing out of your home—why we can wash for you, and iron, also, in the truly clothes-conserving, sanitary way.

To obtain complete laundering service, service that will save you labor and save you money, telephone one of our modern steam laundries in your community.

## PRISONERS FAIL IN TWO BREAKS.

El Centro Jailer Finds Men  
Saving Bars.

Mexicans Cut Way from  
Chain-Gang Cage.

Both Attempts Foiled by  
Deputies and Guards.

(EXCLUSIVE DISPATCH.)  
EL CENTRO, March 6.—Two attempted breaks for liberty last night were prevented by Imperial county deputy sheriffs. It became known today. Both attempts to escape occurred about the same time last night. One was in the County Jail, while the other was at the Mountain Springs chain-gang camp.

Six prisoners in the jail were found to be sawing away steel bars in preparation for an attempt to escape. Deputy Jailer Weir made the discovery, and with the aid of Deputy Sheriff Ridgway drove the prisoners into separate cages.

Two Mexicans at the chain-gang camp sawed their way out of the camp cage, and with a stiletto made from a sack needle attacked Guards Frank and Schelene. The Mexicans were overpowered after a sharp fight and sent back to the County Jail here.

As the result of the attempt to break from jail, an investigation is under way today into the underground channels by which prisoners communicate with persons outside.

Only Mr. Weir's invariable custom of looking through the peep hole in the center tank on each of his rounds through the jail prevented the escape of the six prisoners.

Prisoners never are allowed in the runways after the "lockup" hour. And when Mr. Weir "peeped" last night he found the hole wadded full of paper. He removed enough of this to permit him to see into the tank and detected the six prisoners at work with their saw cutting the only bars which were between them and the outside world. They were deadening the noise of their work by applying soap to their saw.

Rutherford B. Evans, alias S. L. Lashbrook, who is wanted in Los Angeles on a burglary charge, and is reported to have escaped jail at several other places, was the leader in the attempt to escape here.

## Plan for Jail Break Foiled by Prisoners.

With the County Jail more overcrowded than ever, what might have been an attempt at a jail delivery was averted yesterday by the action of certain of the prisoners themselves. On Saturday the jail held 538 prisoners and yesterday 538. The Saturday record is the highest so far, it is reported.

It was stated yesterday at the jail that a prisoner in tank No. 1 asked Tom Sharkey, who is being held on a Federal charge of a postoffice burglary, to join him in a jail break. Sharkey reported the request to the prisoner's "kangaroo court" and a letter was sent to Jailer Cronin advising him. It was stated that Sharkey did not join in the proposed plot and, in fact, stopped it. The prisoner, whose name was not given, was sent to another tank.

## SHERIFF SEEKS MURDER CLUES.

Orange County Officer Has Doubt of Suicide.

Thinks Julian Cumberland Probably Killed.

Autopsy Shows No Water in Dead Man's Lungs.

Following the verdict by a Coroner's jury at Santa Ana that the death of Julian F. Cumberland of Los Angeles was caused by strangulation, Sheriff C. E. Jackson of Orange county announced last night that his office is working on the theory that the retired rancher was murdered. It is believed he was made the victim of bunco men or that he was robbed of valuables he had taken from the bank and then put to death.

Mr. R. H. Kratz of Los Angeles, his daughter, who is a physician, assisted Dr. J. A. Clark of Santa Ana in performing the autopsy. No water was found in the dead man's lungs, proving that death was not caused by drowning.

WAS GOING TO BANK.  
Mr. Cumberland, who was worth about \$200,000, left his home, 131 West Avenue Fifty-one, Friday and is said to have gone to his safety deposit box in the Highland Park Bank. His body was found Saturday at Sunset Beach. A heavy piece of iron had been fastened about the neck with a wire. The autopsy surgeon and Mr. Cumberland's daughter found that the wrists of the body showed they had been bruised, presumably by thumps. They also established that the wounds on the face could not have caused death.

The case at first was brought to be suicide because the family received a note ostensibly from Mr. Cumberland in which suicide was intimated. It is now believed the note was a forgery or had been written under duress.

Mr. Kratz, the son-in-law, said he did not see how it was possible for Mr. Cumberland to have strangled himself with stiff wire and then to have thrown himself into the sea. He also pointed out that the body when found was several feet above the high-water mark on the beach, and contended it could not have been washed there by the surf.

FUND FOR MOLOKANS TO BE CLOSED TODAY.

SUBSCRIPTIONS FOR RUSSIANS NOW TOTAL OVER NINE HUNDRED DOLLARS.

The last opportunity to contribute to The Times' fund for the relief of the starving Molokans of Russia will be given today. After today the collection will be discontinued and a draft for the amount donated will be made out by The Times to the American Relief Administration. The fund will then be spent in the purchase of food and clothing for the Molokans of the famine areas. The Molokans represent a Protestant religious sect who were formerly much persecuted by the Czar's government, in spite of the fact that they are considered among the most intelligent, industrious and law-abiding in Russia.

There is a large and thriving Molokan colony in Los Angeles most of the members of which have friends and relatives who are said to be slowing down of starvation and exposure in the Trans-Caucasus and Kuban regions of Russia.

Yesterday The Times fund reached a total of \$930.91, an anonymous donor's gift of \$5 representing the day's receipts.

Conferences with local business men with interests in Japan will be held today by Mr. Abbott at the trade extension department offices of the Chamber of Commerce.

## GIRL .. HELD .. AS .. EMBEZZLER.

Assistant Cashier Accused of Taking Bank's Money.

Laura Thomas.

The lure of pretty silken things worn by other girls and the call of the silver screen changed Laura Thomas, 21 years of age, assistant cashier in the savings department of the Fullerton Southport State Bank, 1400 Fullerton street, Chicago, from a trusted bank employee to a burglar, embezzler, forger and petty thief, it developed yesterday.

From a cell in the City Jail where she was locked yesterday morning by Police Detectives Lloyd and Roberts, the girl blamed her downfall to three things. She stated that she was unable to live on the \$10 a month paid her by the bank, she declared, that she wanted pretty clothes and, last, that she wished to be a motion-picture star. Miss Thomas was arrested yesterday morning in her apartments at 811 Sunset Boulevard after the local police had been notified that on January 21, she embezzled \$1600 from the bank where she was employed. When taken into custody the girl did not deny the charge but placed her theft at \$950.

"Now that I have been arrested I am glad—so glad," is what the girl said to Detectives Roberts and Lloyd. "I never wanted to be bad, and when I am a thief I am not what I know as a bad girl. I have stolen from the bank and I have stolen from others out here, but I have stopped before taking the step that leaves a girl branded for life. I will 'come back' and be respected yet."

The police say they learned that the prisoner, after stealing the money from the bank, came at once to this city and rented an apartment in Hollywood. She at once attempted to obtain employment in the motion-picture business and failed. Then she ran out of money, they say, and stealing a checkbook from the owner of the apartments where she lived she cashed over \$500 worth of forged checks in downtown department stores. Also, police charge, the young woman robbed several apartments in Hollywood and one private home, where she stopped for a time. None of the charges placed against her are denied by the prisoner.

Miss Thomas informed the police following her arrest that her father, Henry Thomas, lives on Green Bay avenue, Milwaukee, and that a sister, Margaret Thomas, is employed in a store in Milwaukee. She stated that her mother is dead.

By telegraph, Chicago police late yesterday afternoon notified the local authorities that they will send a police matron for the young woman and return her to Chicago. None of the local charges will be pressed, the arresting officers declared.

HELD TO ANSWER ON BURGLARY CHARGES.

YOUTHS REPORTED TO HAVE ADMITTED TWENTY-FIVE ROBBERIES.

Frank Dowd, alias Joseph R. Crowley, and John Kruger, called by the police "picture theater" burglars, because they are said to have entered houses while the occupants were at cinema shows, were accused of three counts of burglary and one of grand larceny in a complaint issued yesterday by Dep. Dist. Atty. McClelland.

According to Detectives Read, Gibern and Louis Rico, the two youths admitted about twenty-five burglaries in Los Angeles, Long Beach and Alhambra. They are accused in the complaint of burglary in Alhambra at the residence of Homer F. Hickman, wealthy retired oil operator, and the theft of \$450 worth of silverware, two suits of clothes valued at \$150, and three dresses, valued at \$200. They are also charged with burglary at the home of Mrs. E. Paul, 843 West Fifty-seventh street, and at the store of A. Obenshain, 1499 East Fourth street. The three were arraigned before Justice Follette and held pending a hearing.

ENDS LIFE BY GAS.

Woman Leaves Children with Neighbor Before Suicide.

## Some Reasons why

MANY successful real estate operators in Los Angeles, before undertaking to subdivide and sell property, insist that it be placed under a Subdivision Trust with Security Bank.

The Bank, as Trustee, handles only what it believes to be proper real estate subdivision trusts.

Collections of installments are made by the Bank, insuring prompt division of moneys received between owner and selling agent as agreed upon.

The bank holds title to the property and issues contracts and deeds to the purchaser. Thus the agent is relieved of a great amount of detail work and is assured that the project will not be delayed or affected in any way by the absence, sickness, or death of the original owner of the property.

## INTERNATIONAL DAY PROPOSED.

Daughters of Revolution Outline New Work.

Plan Results from Parley on Disarmament.

International Gathering of Women in Prospect.

BY MYRA NEE.

New fields of activity for the society of the Daughters of the American Revolution, which received marked commendation in Washington diplomatic circles during the International Disarmament conference, were outlined in an interview yesterday with Mrs. William M. Reynolds of Winston-Salem, N. C., national chairman of international relations for the D. A. R.

To attend the State conference beginning tomorrow evening in the ballroom of the Alexandria, Mrs. Reynolds comes to the coast direct from Washington, where she has been in close touch with the delegates, both foreign and American, to the disarmament conference. She will present these recommendations which she outlined yesterday to the members and delegates of the State D. A. R. Friday, in formal session.

The project, in brief, is to establish through the influence of the D. A. R., which is semi-officially allied with the government an "International Day" to be observed annually, on February 6, the date on which treaties were signed at the conference in all public schools with appropriate exercises aimed to promote international friendliness. Also the plan provides that the society itself observe the day throughout the United States.

The national society, through its educational, historical and patriotic committees will prepare and distribute a simple outline of events and results of the international conference, adding from time to time reports of further

legislation and work done toward extending international friendliness. This outline will be for use by schools and patriotic organizations like the Boy Scouts, Children of the Republic and Children of the American Revolution.

The first step will be the bringing about, by the society, of an international gathering of women at Washington in the very near future. The D. A. R. will then appoint a committee to get into communication with organizations in other countries similar to the D. A. R. for the purpose of exchanging thought and suggestions tending to a warmer international relationship.

An effort will be made to disseminate through the foreign press of this country information on American principles of liberty and justice and American standards of right living. These should include both historical information and a "question and answer" service on national ethics. Every chapter of the D. A. R. will constitute itself a bureau of information particularly for the community it represents, for the foreign born, on questions pertaining to national history and national standards of patriotism. The foregoing will be presented also at the Continental Congress, in Memorial Hall, Washington, D. C., by Mrs. Reynolds and is virtually assured of acceptance. It will thus become the vital and immediate work of the national organization.

Daughters of Founders, Patriots. At Adobe Flores, that historic California building near South Pasadena, tomorrow, beginning at 10:30 a. m., the Daughters of Founders and Patriots will hold their annual meeting. Mrs. Emma Johnson of this city is the State president and will preside at the sessions throughout the day as well as at the luncheon which will be given in honor of the national officers of the Daughters of the American Revolution.

Mrs. George Maynard Minor, president-general of the latter organization, is also a member of the Daughters of the Founders and Patriots. She has been ill in her room at the Alexandria since her arrival in Los Angeles Sunday but she has expressed her intention of being present at this gathering tomorrow.

Representatives of committees and election officers will occupy the

## THE LAST WORD.

BY ALMA WHITAKER

The Supreme Court has declared the Nineteenth Amendment legal. This is a gentle reminder to the State of Maryland, the Legislature of which has twice refused to ratify, and challenged its constitutionality, that it is now time to exercise a little gentlemanly gallantry.

But wouldn't it have been exciting if the Supreme Court had ruled against us? Then we could have begun the merry fight all over again, given the dear old anti-slavery party, could have marched in a few more damp parades and smothered the State of Maryland with contumely.

But as it is, we are just tossing Maryland a smile of amused contempt and wishing, with malicious glee, that it all would go and live there. Hope it cost Maryland a pretty penny to prove herself in the wrong.

Excerpts from The Financial Times: "You must assume, for instance, that directors will be honest, that managers will observe sound industrial principles, and if now and then these assumptions prove to be ill-founded, you rightly renege the blame for the exceptions. That is our attitude. We expect to be wrong sometimes—not through our own fault, but through other people's."

Dear me, how very feminine our great financial authorities are becoming.

As for the school of which I see Lord Calverley, engaged in financial investigation for the British government, says: "In pursuing my difficult way through these contradictions, I derived perhaps, some consolation in the reflection that these awe-inspiring 'plans of finance' upon closer investigation, dwindled down to very ordinary proportions."

And incidentally, the Wharton School of Finance in Philadelphia has suspended the "honor system" under which all examinations of students used to be made. "Repeated violations" is assigned as the reason of the suspension of the traditional code.

And the School of Finance, we are told, was the only department of the University of Pennsylvania where the honor system was used.

Thank goodness, the women are not supposed to know anything about finance.

McKevitt, Los Angeles; for recording secretary, Mrs. A. Reed of San Francisco; for assistant secretary, Mrs. George K. Patterson, San Francisco; for chaplain, Mrs. C. P. Rogers, Hollywood; for color bearer, Mrs. Maria S. Stowell, Los Angeles; and for registrar, Mrs. Alice E. Chase, San Francisco.

Mrs. Oswald Harshbarger of Oakland, State regent D. A. R., who is in the city in connection with her duties as a member of the founders and patriots.

Los Angeles Ebells.

Petitions for officers in the Los Angeles Ebells Club were circulated for the first time yesterday and there were only three in evidence. The three, however, made quite a ripple of interest in the patio, halls and reception rooms. They were: For president, Mrs. Grantland Seaton Long; for first vice-president, Mrs. Clyde Emerson Gates; and for director, Mrs. Susan Orcutt.

Sol Cohen, violinist, and Melba French Barr, soprano, were presented by the club in musical recital. Anna French and Mina Hellekson were the accompanists, the former being the mother of the singer.

Highland Park Ebells Club. "Songs of Childhood" will be given by the composer, Mrs. Ella W. Dunfield, at the meeting of the Highland Park Ebells Club today, in the clubhouse, beginning at 10:30 a. m. Miss Anna Doyle will read from Moliere and the monthly luncheon will follow. Representatives of various clubs will be present as guests of honor. Miss Gertrude Darlow will review several late books.

Ebells Junior Auxiliary. "Keeping the Romance" will be given by Miss Elsie Lee of the Nordie Studio before the Ebells Junior Auxiliary meeting tomorrow at 2:30 p. m. in the clubhouse. Mrs. Charles McKelvey will give a fifteen-minute drill in parliamentary law. Tea will be served at the close of the program, with Mrs. Donald Simpson and Mrs. Crail at the tea urns.

The Daily Fun Hour. BY HONOR WALSH.

Shoal Herring. Nearly all games in which the characters are fish come from Scandinavia. One game which originated on the coast of the fjords of Norway and Sweden. One player is counted out to be Lone Herring. He goes away and hides, while the others, blind their eyes and count up to one hundred. Then they call in chorus, "Lone Herring Herring!" and go to seek the hidden player.

This game differs from all other forms of hide-and-seek in that the seekers do not tag or capture the "it" when they spy him. Instead, each looks about to see that he is not watched, and then he hides with the Lone Herring. Other players, one by one, do the same until nearly all are crowded into "Shoal Herring." If there is no more room in the Shoal, the players hide in nearby places. The last seekers have the worst of it, as the Lone Herring is completely concealed from their view by the players in the Shoal. The first finder becomes Lone Herring for the next game.

Shoal Herring can be played out of doors or in. It is a very popular house party game. In one variation, the Lone Herring leaves a trail, called the Herring Trail, made of scraps of paper. But as he can stop the trail at any point, and hide himself far from the

## Electrical and Industrial Efficiency.

INDUSTRIAL efficiency is becoming more and more dependent upon scientific electrification. The success of electrification depends largely upon the responsibility and competence of the electrical contractor who does the job. Realizing the importance of safeguarding standards of electrical materials and service, the Pacific States Electric Company—the largest distributor of electrical merchandise on the Pacific Coast—distributes its materials and appliances through electrical engineers and contractors who are qualified as to their responsibility and technical competence.

These standard materials and appliances are identified by the "check" mark reproduced in this advertisement.

Cut-rate electrical contracting service is never economical. Employ a competent, responsible contractor. Look for the "check" mark on the materials and appliances.

MARX BOYS CHEER

KEEP MOVING ALL THROUGH THE ORPHEUM BILL.

By Grace Kingsley.  
Probably you remember those Marx boys, the red-headed one, the wop one, the be-spectacled one, and the kid, who used to kid around at the Orpheum, play the harp and other musical instruments? Well, they are at that house again this week, but in a new act. In fact they split over into several of the other acts.  
The Four Marx Brothers' new act is called "On the Balcony," probably because most of it takes place down in the parlor. A theatrical agent is supposed to hire four hams, actors, when the show goes into full stage, with the brothers doing stuff along their old lines, all of which is bright, clever, and above all appears entirely spontaneous.  
The bespectacled one gets off his wire crutches; the red-headed boy, star as ever of the crowd, is still dumb, but irresistibly funny in pantomime as ever. He plays the harp even better than of old, if that be possible; the wop hasn't quite so much to do, but is just as good in what he does, and the kid is smooth and pleasing.  
There are four of the prettiest things in vaudeville captivity with the act, two of them, prize peaches right off the top of the basket. Linda, the dancer, is one of them, an sweet, pretty and fresh as a convent miss, and Helen Schroeder is the other.  
The act stops the show, and the boys hold an overflow meeting on the stage, kidding the following act, Ben Bernie's.  
Bernie is a great boy himself, with a talkative violin, a highly pleasing personality, and some clever patter. He would be a nice hit without the aid of anybody else, and could easily get away with more music.  
The Lang and Vernon racket is started by Miss Vernon, who makes her bow in one, goes off to get her partner. The curtain goes up slowly, and Lang is seen apparently balancing a lady on his hands; but as the curtain rises, the lady is a prop. Lang has much magnetism, looks, and a natural but comical method that gets him a great deal. The act stops the show.  
The poker talk in the Ward Brothers' English silly-act class cleans up on laughs so far as the house is concerned, but personally it seemed to me a bit strained. The boys are very good steppers, however.  
As cute a little girl as ever floated out on the stage is Jewel Barnett, who sings some fetching songs. Bobby Adams, her partner, likewise scores with his talking and pianoing.  
Breaking open the bill are Emilie and John Nathan in about the nearest hand-balancing and tumbling act the Orpheum has had in many months.  
Closing the proceedings are the trained bears of Emil Pallenberg, which, again, walk the tight-rope, ride bicycles and do other un-bear-like tricks and correspondingly are entertaining.

**BEBE COQUETTES**  
A L'ESPAGNOLE.

Let Bebe Daniels always play pretty, coquettish, audacious Spanish girls hereafter, and let Chet Franklin always direct her!  
That's the way you feel after looking at Miss Daniels as the capricious heroine of "A Game Chicken," from Nina Wilcox Putnam's story, which opened at Clune's Broadway Theatre. For the first time, Bebe has a chance to be her real self—an innocent, coquettish, fiery, exotic young lady of Spanish birth.  
There is a brilliant freedom about Miss Daniels in this picture, a natural radiance, such as I have never known her give off before, clever as her work has always been. It seems likely that this may be due, in part, to Chet Franklin's direction as well as to her own intelligence. At any rate, the combination is a very happy one.  
There is also a peach of a fight between Hugh Thompson as the villain and Pat O'Malley as the hero, in which Thompson gets tossed into the furnace-like blast of the burning ship, after Bebe has set it off to attract the attention of the Federal officers. Of course, everybody is rescued that should be.  
Hugh Thompson is such a fine, unassuming figure of a man, by the way, that I wish I could see him play a hero once in a while. He's a very excellent actor. Not that I'd put Pat O'Malley out of the hero's niche in this picture. He's so brave and good looking as to entirely justify his selection. James Gordon, Martha Maddox and Gertrude Norman are pleasing in lesser roles.  
There is a wealth of very beautiful photography in the picture. The soft photography, especially, is exquisite. The continuity and tempo are entirely satisfactory.  
A travelogue in Switzerland is amusing as well as easy to look at.

**TRIP TO BORNEO IS**  
CLEVER NOVELTY.

Maybe you've rolled down to Rio, and tripped to Mandalay, but if you've one you haven't been to Borneo, where the cocoanuts and the monkeys both grow on trees, and the old crocodile gorges in the river, and natives dress as is, and the jungle is the jungle as it used to be. Whatever you may have against the world in general, you won't have anything against Borneo in particular as it is shown to you on the screen this week at the Symphony.  
The film, which is a result of the latest explorations of Mr. and Mrs. Martin Johnson, shows a trip up the Kinabatangan River, which practically bisects the island. They went far and deep into the haunts of the native dwellers in the wild of the jungle. They photographed the rare animal the Teddy Bear, caught the crocodiles in action, and glimpsed the orang-outang as he did his setting-up exercises on the branches of the trees.  
There is a thrill in many of the scenes, and all of them are interesting—just as good, in fact, as traveling through Borneo yourself. Exceptional instruction and entertainment are also afforded by the pictures of the great naval battle of Jutland, where the German fleet was only saved from complete disaster by simple good luck of the fleet and foggy weather. Most of the pictures are miniatures but the suggestion of actual warfare,

**USUAL TRIANGLE**  
IN SWANSON FILM.

The domestic complex in Gloria Swanson's latest starring picture is doing quite as well as usual, thank you. The star is married unwisely, the husband is finally killed, and our heroine escapes the bandits and weds the man whose love she had resisted through a sense of duty.  
At that, "The Husband's Trade-mark," which is showing at Grauman's Theatre, is a very entertaining rather than a happy thing. It is a picture of a man who is a success in business, but who is a failure in love. He is a success in business, but who is a failure in love. He is a success in business, but who is a failure in love.  
The theme of the picture is utterly cheap in its materialism, but as it all turns into good old melodrama, and as everybody accepts the general result.  
Stuart Holmes is thoroughly clever in his villainy. He has that surety in getting over things which is an accomplishment of the routine screen player. You devote a conscious satisfaction from his presence on the screen. Richard Wayne may be passed as a flying a negligently interesting hero part.  
And, of course, Miss Swanson herself, as always, possesses a personality of fascinating interest. The color that she gives to the depicting of her roles is one of her salient charms. Sam Wood is rather clever in keeping the action going all the time.  
A Graumanesque program with music and novelties accompanies the feature.

**Motorcycle Thriller is**  
Real Goods.

The most thrilling act in vaudeville is a description which defies criticism by its territorial audacity. No one has seen all the vaudeville that ever was, there are no days affirm that such and such an act is not the thrillers' final apotheosis. On the contrary, these superlatives make it hard for one to believe that such and such an act is not the thrillers' final apotheosis. On the contrary, these superlatives make it hard for one to believe that such and such an act is not the thrillers' final apotheosis.  
Bare description must suffice. The pair ride bicycles and motorcycles around the inside of a large sphere of steel lattice-work, and if you don't get a kick out of it, then there's no use your going to the theater any more—you are immune. Still the reviewer wishes the program-writer hadn't stolen all his thunder; he has some adjectives that would have fitted beautifully.  
Al Sweet and his singing band are better when they play than when they sing, but are quite effective both ways. Billy Green and Charley Dunbar stage a "nut act" that goes over with a roar, and is amusingly without the aid of "is-it" — answers, or answer, or questions about your past, present or future.  
The Pan-American Four are just a shade better than the average vaudeville quartet, and their heaters seem to appreciate the shade. The Wyoming Trio open the bill with song and fancy rope-work. And the Veiled Trio there are really two of them, but what on earth is the plural of "is-it" — answers, or answer, or questions about your past, present or future.  
The play feature, "Two Kinds of Women," adapted from the novel, "Judith of Blue Lake Ranch," and starring Pauline Frederick, is an excellent picture, well acted, staged and directed.

**REVIEWS.**  
"LONDON FOLLIES"

ENGLISH MUSIC REVUE HITS HERE WITH SPLASH.

By Edwin Schallert.  
They can send the London Follies to California any time that they don't need them in England. Provided, of course, that in doing so they guarantee to spare our lives. For at the first Follies, it may be truthfully said that we came near laughing ourselves to death last night at the Mission.  
This is a season, apparently, for importations. As Will Rogers might say, the home product is so bad that they have to go to Europe to get a good show nowadays. Well, it is true, to a degree that a lot of American revues could take lessons from the entertainment provided by Harry Tate.  
Like the "Beggars' Opera," the "London Follies" are playing the Coast first. At least, they are beginning their tour of the United States along the Pacific. They came through Canada to the Northwest.  
I'm pretty sure that Canada couldn't have lived a bit better than did the audience here last night. There was a crowded and, in spots, a brilliant attendance. Particularly so, considering the presence of Charlie Chaplin, in one of the boxes. He was accompanied by his wife.  
But the thing is that Harry Tate is a real comedian — the drollest thing in whistlers and red-plastered-down hair, in fact, he's a laugh every fifteen seconds as long as he's on the stage.  
You know him perhaps. He used to do "Motoring" and "Fishing" in this country some years ago. That is, I mean he did them in vaudeville.  
He looks like an even break between a desk sergeant in a police station, and the popular edition of John Bull. However, he's no relation to Sitting Bull. He keeps moving too fast for that.  
His auto-selling rambles along in high until the rambles finally split apart and leaves everybody mixed up with the pieces. It's in Tate's best comedy style, but it's only a little better than the golfing incident, which also makes a top-notch hit.  
A lot of Tate's comedy is what is popularly termed "stiff." All of it is refreshingly clean. In fact, there hasn't been a more here in ages which was so absolutely free from smut as the London Follies are.  
Outside of Tate the chief reason for going to the Follies is almost everything else. The entertainment is so abundant that all the way through, it is another way of saying that it is full of pep.  
The settings and the girls are too far away from home, perhaps, to be perfect, but the costumes and some of the stage effects have a real novelty that struck right home with the audience. Everybody on the stage who has any singing or dancing to do does it.  
The performance opens informally, with an imitation rehearsal, works up by degrees into an Oriental extravaganza called "India" that has more real India about it than most such inventions. The burlesque "Caught" is a very amusing bit about the wife endeavoring to discover her foxey old husband's clandestine amour. "In Old Versailles" is an agreeable picture, and rehearsing a melodrama and the finale provide more contrasts.  
Lillian Cotes, who does considerable of the singing, has a very pleasing voice and a pleasant way of putting over her songs.  
Harry Gibson, the versatile entertainer, ambles through the 'tween-scenes with a lot of nut and magic stuff a la vaudeville.  
Billie Holland, Connie Brown, Isobelle Dorothy, Len Mance, Harry Beasley, Tom Cressley and Dean Tribune are other clever people with the company.  
Excellent dancing is done by W. Wanda. Marie Dwyer has an attractive number, while the chorus steps along with lots of pep.  
You'll enjoy yourself at the London Follies.

FASHION SHOW  
GREAT SUCCESS.

Society Folk Turn Out to  
Relieve Woes of Poor.

Thousands of Dollars Made  
to Support Hospital.

Scenes of Splendor Bring  
Patrons in Crowds.

Mirth and merriment, opulence and splendor, the world's delights and human woes reached across the wide-spread, scale of the city's social structure yesterday and each came closer to the other.

A pageant of spring fashions was given at the Ambassador yesterday, a marvel of color, motion and form and the Children's Hospital Society and the Children's Preventorium are thousands of dollars richer today.

Society folk and others were there, in gilded chairs and amid heavy draperies, they sat and watched what was perhaps the most gorgeous and artistic pageant ever produced in Los Angeles. Outside there were hundreds of automobiles, a fleet of chauffeurs with their liveried chauffeurs. Lights, music, smiles mingled with applause and praise.

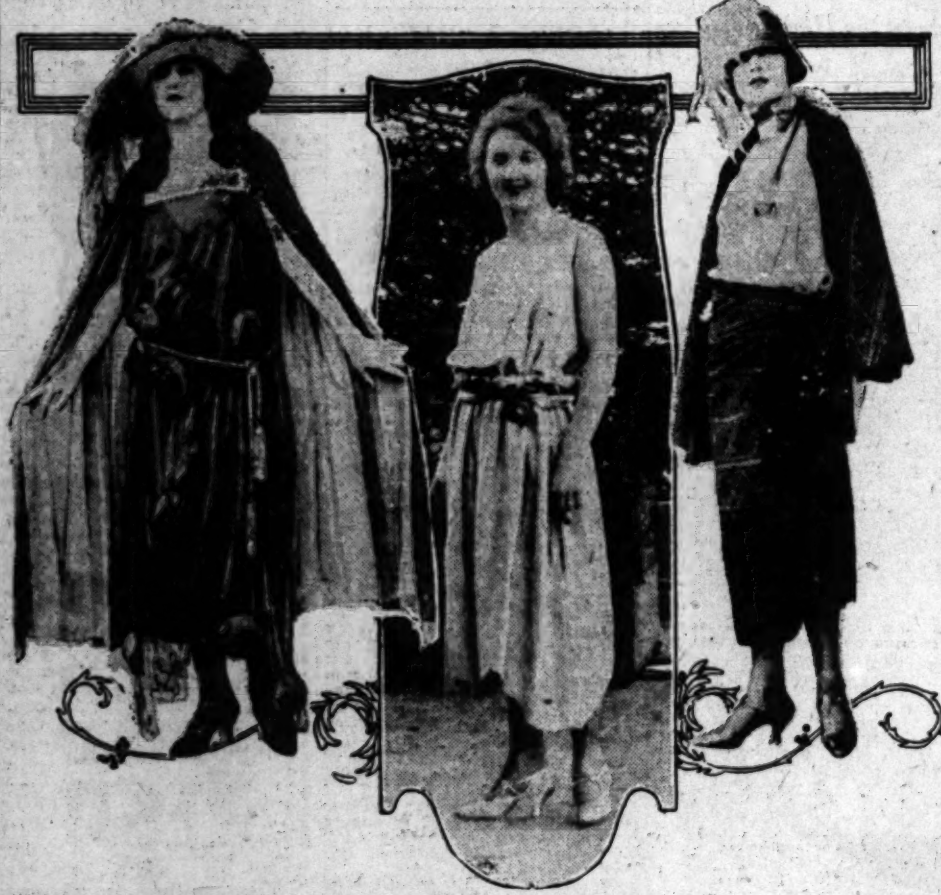

SETTING OF BEAUTY.

There was a breath of spring, the inspiration of youth and of beauty in the poem-like steps of graceful mannequins as they promaded the heavily carpeted walkways under the dazzling light. One by one the acts of the program, devised by I. Maguin & Co. and produced under the personal direction of Grover A. Maguin of San Francisco and his staff of experts and artists, unfolded in a series of color, texture, motion and sound. The final curtain after the two performances of the day brought applause and praise from those who came, wondered and were pleased.

The pageant brought something else. It brought hope and relief to the silent actors in the drama of contrasts, the little ones who did not leave their parents' cramped beds in homes of poverty to mingle with their friends of wealth and power. It brought little iron braces to the twisted legs whose steps must lack the spring and rhythm of the beautiful mannequins. It brought the promise of health to the hearts and souls of the occupants of little white cribs at the Children's Hospital, and therefore their parents came and wondered and were pleased were glad.

The pageant was, indeed, a triumph for every one concerned. The efforts of the patronesses and the program committee brought forth one of the most dazzling gatherings ever seen in similar events. Every seat was filled, every foot of space occupied. When the first curtain was drawn, the women in charge of the affair de-

PRINCIPAL FEATURE.

Gowns and robes with a touch of Mar and a note of joy, draped over forms that swayed, formed the motif for the pageant. Three episodes, with an introduction, and the support of Art Hickman's orchestra, made up the program. Modes for the home and home sport and pastime, and dinner dresses and evening wraps were the titles for the procession of elegance and beauty that formed the principal features of the pageant.

Patronesses of the Pageant.

Rosemary Thoby, Eileen Percy, Ruth Williams and two scores of mannequins were the living figures in the pageant.

The patronesses of the pageant were:

Mrs. C. Gardner Bullis, Mrs. Thomas Buchanan, Mrs. Albert Crutcher, Mrs. Hudd Frankendorf, Mrs. Louis M. Cole, Mrs. Michael J. Connell, Mrs. George Perry Griffith, Mrs. Cecil de Mille, Mrs. Herman Henneberger, Mrs. John Milner, Mrs. Wayland Morrison, Mrs. Granville Macdonald, Mrs. T. E. Newlin, Mrs. C. L. Peck, Mrs. Edwin S. Rowley, Mrs. Russell McD. Taylor, Mrs. B. Wernick, Mrs. James H. Meyer, Mrs. A. J. Murietta, Mrs. Harry Dana Lombard, Mrs. Maurice R. INVESTIGATE ANOTHER MURDER "CONFESSION."

DETECTIVES SEEKING AUTHOR OF LETTER ADMITTING TAYLOR MURDER.

(By A. P. Night Writer.)

HARTFORD (Ct.), March 6.—The Connecticut state police today renewed their investigation into the mystery of the suicide of a man at Warehouse Point, Ct., whose body was found February 19 with a bullet hole in the head. The state police believe the body may be that of Edward F. Sands, missing secretary of William Desmond Taylor, slain film director. The body corresponds with Sands' description.

THE HANDWRITING.

The handwriting in a letter which came to the District Attorney's office, asserting that it was written by the slayer of William Desmond Taylor, is being investigated by officers detailed on the case. Specimens of the handwriting in connection with the murder have been obtained and are being compared with the letter now being guarded by detectives of the District Attorney's office.

The letter, which was received several days ago by Captain of Detectives Adams, was written by a man who stated he had killed Taylor because the motion-picture director had mistreated the writer's wife. Though it was only one of a hundred or more "confessions" mailed to the police since Taylor was murdered, Capt. Adams stated yesterday that it was similar to another letter which he had received during the early stages of the investigation. The two messages, Capt. Adams said, if they could be linked together, might be of assistance in solving the case.

Capt. Adams Denied That the "Confession" Had Been Written by Edward F. Sands, Taylor's Former Secretary.

The name of a prominent Hollywood resident was signed to it. This person disappeared shortly after the slaying, and efforts are being made to ascertain if this person is the author of the letter. The contents are known to no person other than those engaged in the investigation. Capt. Adams stated, nor will they be made public until the officers discredit the authenticity of the details it contains or locate the author. It was given to Detective King and Winn of the District Attorney's office, who yesterday employed a handwriting expert to compare it with other specimens which are now in their possession.

OPEN FLORAL DISPLAY.

In order that the public can view the special floral display at Lincoln Park, the conservatory there will be open this evening, tomorrow evening and Thursday evening, 7 p.m. to 9 p.m., by order of the Board of Park Commissioners.

EXONERATED AS BROTHER CONFESSES.

Patrolman Being Led Away as Robber When Admission is Made.

"Boys, I am the man you are looking for and I am ready to go with you."

A brother's love yesterday saved Patrolman George A. Carter, 32 years of age, of 3731 Wall street, from a cell in the City Jail.

John J. Carter, 34 years of age, the police officer's brother, was the speaker and thereby stopped Detective Paul Stevens when the detective was leading his brother handcuffed from his home.

Patrolman Carter was arrested early yesterday morning when he was identified by Harry Islieb, owner of an oil station at 3421 South Park avenue, as the highwayman who robbed him early Sunday morning of \$160.

John Carter in a signed statement made to Capt. Jackson in command of University Police Station, declared yesterday afternoon that he took his brother's coat, hat and revolver early Sunday morning, and after hiding his face behind a mask, held up and robbed Islieb.

Islieb Brought About the Arrest of the Patrolman When He Identified the Bandit by His General Appearance, His Coat, Cap and Peculiar Walk.

Capt. Jackson late yesterday afternoon ordered that Patrolman Carter be held until the entire case is cleared up and that John J. Carter be locked up on a charge of highway robbery.

Elderly Rich Man Answers Girl's Love Suit

Earl Rivers Osborn, elderly and wealthy, who is charged with having toyed with the affections of Melba M. Chandler, 22 years of age, denies her assertions in an answer to her \$50,000 love suit filed yesterday. He also filed a copy of an agreement by which he says he agreed to make a cash settlement of \$4000 of any claims she might make. The cash payment was not made, he says, on account of the charges made in the complaint.

Melba Chandler asserted Mr. Osborn is worth \$500,000. He says he is not worth in excess of \$10,000. She stated she was being sophisticated and that Mr. Osborn represented himself as wealthy. She says he persuaded her to enter into a settlement while she was ill from worrying over her purported relations with him.

Chamber of Commerce Plans Send Out Sixty Thousand.

More than 60,000 Rotarians, residents of the United States and the Dominion of Canada, will each receive a copy of "Los Angeles Today" from the Los Angeles Chamber of Commerce.

The international convention of Rotarians will be held in this city in June and every member has been notified of the fact. The booklets will not be sent to the officers but to the members of the Rotarians, suggesting that they bring their families for a happy vacation in the Southland.
